

HAMLIN STREETS IMPROVED BY WPA

For the past several months continuous work has been progressing on Hamlin streets . . . (the streets run east and west—Avenues north and south) in Hamlin. Nearly every block has been treated since the work started and they are still doing some needed work.

By taking advantage of the government work or assistance, Hamlin has literally been lifted out of the mud. Before the caliche-gravel work ever started it was impossible to use a car without chains in this town. Now travel is possible in practically every section and on every street, in any kind of rainy weather.

The WPA work has been done with direct supervision of Mr. Calicote, and this can be said of the foreman and the workers: No work has ever been done on our streets that compares with the quality they have put down. They have had the active co-operation of the city in every way possible. Mr. Petty had a good part in the street work in his operation of the grader. The streets are now better than standard highways were in Texas a few years ago. The streets, and we speak of them as "side streets," are much better now than the main north-side avenues. They used a topping of what is known as "pit strippings" which has a good gravel-caliche set-up, and will not blow or pick up. Mr. Calicote has taken especial pride in trying to do the very best grade of work possible and he and all his men have done much to redeem the name of WPA in Hamlin.

People need not complain if water stands a little on the sides of streets. The lay of the town is so flat that drainage is impossible except with a very expensive and prohibitive underground drainage system. There is some advantage in having water stand by your yard. It helps keep the trees and plant life fresh and lasting, so get that much consolation out of the slow drainage. The disadvantage is that ponds of water make good places to produce mosquitoes and frogs—both have a good hatch by this time. Watch out for them, if the summer turns off long and dry. Good streets are a mark of good citizenship, therefore let's keep our streets looking the best possible.

Mrs. Robert Gill of Winfield, Kan., left Thursday for her home after spending two weeks here with her daughter, Mrs. F. D. Wells and family. Little Miss Phyllis accompanied her home for a month or more.

Mr. and Mrs. Leslie Winkels and children, little Miss Alma Faye and L. R. Jr. of Portland came up last week to visit their parents, Mr. and Mrs. Fate Beavers, and other relatives.

FIRE BOYS ATTENDING STATE CONVENTION

This week four of Hamlin firemen are having a big time attending the State Convention in Amarillo. Those in the party are "Pistol" Crow, Lott Shell, Bradford Rowland, and Carl Young. Reports indicate that 2,000 firemen are attending.

Cities and railroads co-operate in every way possible to enable the firemen to attend their conventions. It is the biggest day of their year as firefighters to get into the crowded convention city.

COLLEGE MAN VISITED PARENTS AT NEINDA

The Herald is always glad to see a young man make good, and to have them visit our community after the making has taken place. This is what we have to say about Richard Hodges, son of Mr. and Mrs. R. B. Hodges of Neinda. Richard came in Tuesday for a short visit with his parents, and while here was a visitor at the Hamlin Rotary Club, and incidentally called on the Herald.

Richard is a graduate of the Hamlin High School, and a young man who has kept on going up since he left the home-town school. He is Active Vice President of the John Brown College at Siloam Springs, Ark. This institution is one of the most unusual schools in the nation. No boy need have a dollar to enter there, but he must have a desire to work and to do right, to be anxious to pay after he is through school. No athletics consume any time at this college. Every student works at the John Brown College, which is an institution with a plant of \$3,500,000 value, and besides the same management has two schools in California, operated on a different basis, valued at a big figure. Richard Hodges is proud of his Benton County, Ark., home. He says it is a county of diversified industries, mostly owned in small tracts, and everybody nearly has much cows, from 1 to 30, and thousands of pounds of milk are shipped each day from his town. He also stated that his county ships more broilers than any other county in the nation. All this sounds like "living" to us. There is plenty of thought for old and young in this story about Richard Hodges.

Miss Ruby Dean left last week for Alpine where she will take work in Sul Ross College. She will receive her degree at the close of the summer term.

"The process of thinking draws the blood from the feet to the head," an educator informs. This explains perhaps, why in so many cases if you think twice about a proposition, you get cold feet.—Oklahoma Publisher.

ROTARIANS OFF FOR SAN FRANCISCO

One of the finest trips a Hamlin group could plan out is being taken this week by Mr. and Mrs. Mac Brundage and daughter, Miss Maxine, and Forrest Greenway, who left Thursday by auto for San Francisco to attend the annual convention of Rotary International.

The convention opens on Monday, giving them plenty of time to sight-see on their way. They are taking a northern route in going and will return by the El Paso route.

At this convention, perhaps sixty or eighty nations will be represented, the largest convention of Rotarians will be there in many years.

NYA WORK IMPROVES HAMLIN CITY PARK

People, generally do not visit the City Park as they did in former years. But if one goes down there these days he will see so much improvement that he will be surprised and pleased. Really one will begin to feel proud of the park.

For some months past the National Youth Administration has been operating in Hamlin on a small scale, and their chief work has been in the City Park. When you visit the park again you will see that it is now beginning to look like a suitable place to spend a few hours of the summer day. You will find that the lake is full, and this makes a pleasant background beneath the willows, and other trees. You will find some grass and not very many weeds. You will find a lot of stone seats, stone tables, a barbecue pit, and lots of things that will help you make the twilight party a success.

All this work is just a starter. It is being done now by just four NYA boys, who must not work over a certain number of hours per month. The work is under the supervision of Water Supt. Bill Rountree, who is hoping that the NYA will be extended to permit him to really make the park one of the prettiest in the county.

There is also a movement on foot to get a WPA project by which the ball park can be rebuilt, and modernized in such a manner that more people can enjoy it.

Now in this connection it will not be out of place to warn certain folks that destruction of property in the City Park is likely to get somebody's boy in deep trouble. When you go to monkeying with property that Uncle Sam helps to build or maintain, in co-operation with the City, you are cultivating trouble. This is said because Mr. Rountree says in some cases work is broken down or defaced before it gets set or dried in the concrete. This means that a keeper must be provided to prevent misuse of the park or destruction of trees and equipment. The more the park is improved the more necessary that some means be provided for maintenance and protection.

Go down and enjoy your supper in the open breezes. Plenty of shade, plenty of tables and seats.

EXPRESSION OF GRATITUDE

We want to express to our friends and neighbors our sincere thanks and gratitude for their kindness shown in so many ways during the illness of our mother and sister, and for your acts and expressions of sympathy at the hour of death.

Cecil Terrell,
Miss Lula Fletcher,
Mrs. Joe Holt and family.

Mrs. Geo. Bender returned last Thursday night from California, where she had spent a short time with her son, Newman Bender, and wife. She will likely return soon for a longer stay.

Mrs. W. J. McGee returned this week from Big Lake, where she has been spending several months. Before returning home, she visited in Carrizso Springs and other points in South Texas.

Honesty is spiritual power. Dishonesty is human weakness, which forfeits divine help.—Mary Baker Eddy.

FARMERS CAN HEAR COM. J. E. McDONALD

Most all Hamlin farmers have heard our State Agricultural Commissioner, J. E. McDonald, but few have ever seen him. Most every farmer has heard of Mr. McDonald's Cotton Parity Plan, but not many have heard him talk about it.

Mr. McDonald will be in Hamlin Thursday night, June 23, to address the farmers and business men at the Hamlin High School Auditorium. This is a great opportunity to learn something about the much talked of McDonald Plan. Tell your farmer friend about this speaking date, and place. Bring a bunch along with you, and don't leave the women folks behind, they are interested too and should know about any plan that will help the cotton farmer.

Hamlin High School at about 8.00 o'clock, Thursday night, June 23. Be there.

HAMIN OILERS TOOK 8TH FROM HASKELL

The "Oilers" defeated the Haskell "Braves" in a very one sided, ragged game to win their 8th consecutive game. The Braves were unable to hit the pitching of Black of the Oilers, while his mates hammered Pitman for 9 hits and 11 runs in first 2 innings and Hall for 8 hits and 8 runs in the last seven innings.

THE PUBLIC SHOULD KNOW ABOUT TAXES

AUSTIN, Texas.—First of the political candidates to answer the Texas Press Association's inquiry of Saturday as to his position on legislation requiring and regulating legal publication, William McCraw, candidate for governor, today explained that he has always favored such a plan.

"Both as an ex-newspaperman and as an advocate of economy in government, I am in hearty accord with the Texas Press Association's program for enactment of a law requiring that legal notices, tax notices and understandable reports on county receipts and expenditures be published in the legitimate newspapers of each community," McCraw said. "If I am elected governor I shall sponsor such a bill. When the voters of the county are kept fully informed on their government's business, there is not much chance for waste or extravagance to creep in."

The attorney general also commended the press association for its stand on full publicity for all tax-making groups.

NOTE: It very important that the public understand what goes with money" as well as reading certain legal notices.

A LETTER FROM A COLLEGE GIRL

Miss Geneva Jo Maberry, of McCaulley, Texas, is attending the summer session at T. S. C. W., Denton, Texas, and she is enjoying it fine. Being among hundreds of girls is certainly a big thrill.

She writes: "There are many types of good entertainments here if you just only had time to attend them. There is at least two free picture shows each week, a free skating rink, a beautiful park and a very good swimming pool. This is certainly not all either."

"I thought on Saturdays the streets of Hamlin were very crowded. But people you should have seen the Denton streets last Saturday. My, I could hardly make my way through."

"Everything that a girl could desire for her use is at her convenience. So I urge any girl who enjoys social activities and a good education to just try T. S. C. W."

Yours truly,
Miss Geneva Jo Maberry.

RAY WILLINGHAM AND FAMILY MOVING TO RULE

The Herald regrets to see one of Hamlin's good families move away, we speak of Mr. and Mrs. Ray Willingham and son, Ray Jr. But in our loss of good people it is Rule's gain.

Ray Willingham, a member of the Home Lumber Company in Hamlin, has been manager of this company since its organization. He recently closed a deal for the People's Lumber Company at Rule and he and his son, Ray Jr., are already there and Mrs. Willingham will join them as soon as their house is ready. Ray Jr. has been with the F. & M. Bank for a year or more and that institution will miss his association and valuable help.

Rule is not so far away and is a good little city in one of West Texas good communities. Here is hoping that the Willingham family will like their new home and new business.

However brilliant the action may be, it should not be accounted great when it is not the result of a great purpose.—La Rochefoucauld.

LOYD PRESLEY FOR DISTRICT CLERK

Lloyd Presley, a young man of Jones County, has been in the race for District Clerk since early in the season, but until this week has not made his formal appeal for votes to the people through this paper. Lloyd was here Monday and is warming up to the task of seeing as many voters as possible before the primary.

Lloyd is 23 years of age and has spent most of his life on the farm in this county, except the time in school. He says he is fully qualified to fill the office of District Clerk and that he would be glad for each voter to make full investigation as to his character and ability. Lloyd is a bit handicapped in his walking but he says he will not claim that to get votes. He says he has hit the dirt on the farm in every capacity regardless.

Lloyd says "I have seen a great many voters in the Hamlin district, but find it impossible to see each and every individual, however I shall keep trying to do so, so if you fail to meet me, I shall appreciate your earnest consideration."

Sincerely I solicit your vote and influence.

LOYD PRESLEY.

SUPPER ON THE LAKE FOR CITY FORCE

Roy H. McCurdy and his son "Chunk," assisted by the boys of the Compress force, were gracious hosts at a twilight supper on the City Lake, in front of the McCurdy Camp, last Friday evening from seven to nine o'clock.

This treat was especially for the City officials and the Firemen. All of these fellows were there in great style and had a good time. Besides the officials and the firemen, a few other guests were asked to come and enjoy the coolness of the Lake-shore McCurdy Camp, and the cafeteria style eats.

The McCurdy Camp house is the only one on the lake and it is set back among a clump of trees and with a well kept yard, plenty of settees, and facilities to care for guests, it made a delightful place for a "man's party," and it would be just as good for a "woman's party" or any kind of an outing party for that matter. But Friday evening it was a stag affair and one of the most delightful two hours one could want.

About the time the host requested the fellows to step up and dig in for something to eat, the wind from the back wash of the Clyde tornado fanned across the waters and each and every fellow had to cling on to his plate and "coffee cup" to hold it in place, but little did anyone know of what was happening just a half hundred miles away.

Now about the eats: No mere man prepared the food. It was too daintily arranged on platters and was prepared too well for a man to have had anything to do with it. A few bites of that boiled ham, salad, pickles, etc., with a bit of iced coffee, made a fellow want to visit the table again and again. Some did that very thing too.

It was a fine hour and a fine group of men, and each and everyone so pleased that they wished Mr. McCurdy, his son and the compress boys would "do it again."

We are taught by great actions that the universe is the property of every individual in it.—Emerson.

WHAT ARE THE ISSUES?

It is now clear that there will be about fourteen names for Governor on the ticket in the Democratic Primary in July. It is our guess that today the head man in popularity is one Bill McCraw of Dallas and perhaps the second man in popularity is one Ernest O. Thompson of Amarillo. What is your guess? There are a number of lesser lights flitting about and maybe some of them would make a better governor than either of the most popular. That will never be ascertained.

The question that should come into a voter's mind . . . who should be our Texas governor and why? What does one expect of a governor. His power is so limited that but few, if any, of his promises can be carried out. All will likely speak of reducing cost of government but ere long after the inauguration, somebody in the legislature will hatch up something that they think the dear people must have, saying "it will not cost much. Besides think of what Texas will miss if we do not join in getting what the federal government will match us with." So the pressure is put on and the cost mounts up in spite of the campaign speeches of the summer of 1938. Just what can a governor do? Just what ought or can the legislature do? That body must first do the doing. The legislature has no power to create or regulate jobs, no power to prevent any of the modern day problems facing this modernistic civilization. No governor nor a member of the legislature will be able to lessen the number of insane, the number of criminals, sentenced to the penitentiary; lessen the number of blind, or deaf, aged or hungry, and after all maybe its the state's chief duty to care for the unfortunate and the bad, to eliminate all the suffering possible. One thing certain, the legislature can eliminate so many doing so little while getting state pay. Are there too many doing too little of what is to be done? There are so many problems perplexing every state that no human can actually tell what should be done, whether anything or

nothing—that is the question. But listen to the candidates for governor. What is the issue? Or maybe we do not need an issue.

NEED A LARGER BASKET

As the political campaign warms, the amount of "please release" dope increases—we need a larger waste basket. Now "Boys," you are running for an office that pays well—several thousand per year, and the chances are YOU will get to hold it, if you get it, about FOUR years—if it is worth anything to have your "dope" published, then let the newspapers have some cash—it costs us money to set type, to furnish space. We can not "lift" you into office and allow you to "forget" us immediately after the office is yours . . . somebody must pay.

JONES COUNTY EDUCATIONAL
NOTES OF INTEREST

We have received notice from the State Department of Education that the following schools have received recognition as Standardized Schools for the year 1937-38. This is the same as receiving affiliation in larger schools and means that the schools may make their budgets on a nine months basis. There are fully accredited schools and ten standardized schools in the county now. A large part of the credit for this attainment belongs to the trustees and the community as well as the teachers and I am sending you the names of both teachers and trustees in the hopes that you will find it convenient to print.

FREE BALLOONS FOR HAMLIN KIDS

With the announcement in today's issue of the Hamlin Herald, introducing "Reddy Kilowatt," Mac Brundage, local manager of the West Texas Utilities Company, made this explanation of the new addition to the company's staff:

"For a number of years, we've been seeking some way in which electric service could be pictured to the public. Practically everyone knows about electricity. But to many persons it is a mysterious force which they believe comes out of the sky. In fact, however, it must be generated at a high voltage, then subduced and more or less served on a platter in homes and business where it may be safely used at a mere turn of a switch.

"In Reddy Kilowatt we believe we have a figure which illustrates electric service in an unmistakable manner—one which immediately suggests electric service."

In order to help acquaint WTU customers with "Reddy," Mr. Brundage said that free balloons bearing Reddy's picture and small pasteboard cutout figures of the little fellow will be presented to all children, accompanied by an adult, who

visit the local office Friday.

"We preferred a character such as Reddy Kilowatt because we regard our service as friendly and helpful," Brundage declared. "We felt that our sentiments could best be expressed by a real, lifelike electric servant. That's how Reddy came into being. He typifies modern electric service as it is available in every home."

F. D. Wells received a message Monday that his father had died at Tulsa, very suddenly. He was about 80 years of age. It will be recalled that Mr. Wells' mother died on May 19 at the age of 76 years. It was impossible for Mr. Wells to attend the funeral of his father.

Mr. and Mrs. Jack Pine and family left Wednesday for Okemah, Oklahoma, where they will visit Mr. Pine's mother and brother, former residents of Hamlin.

Geneva Jo Maberry from McCaulley, and Juanita Hawkins and Fern Baker, from Sylvester left June 5 for T. S. C. W. College at Denton, Texas. Geneva Jo writes home she likes fine and is carried away with her school.

Mr. Elliott is connected with the Ideal Security Life Insurance Company, with offices in Anson. He and his family are occupying a house 1 block east of the ward school building.

This week has kept us pretty busy dodging bill collectors and candidates.

Last week we spent our three-day vacation in other parts, so we missed the regular first of the month siege of collections. Hence, the special attention this week.

And it seems that we've run into every candidate on the ticket. The final campaign is getting off in a running start. But say we kind of like the old fashioned technique of candidates—you know where they have the out-door speaking. That way everybody has a good time; the candidates can do lots of "politicking", shaking hands and kissing babies; and we can get a ring-side seat for the mud-sliding.

From all signs and all reports some of the local gals are going to be awfully lonesome when the skating rink leaves town.

It's very nice to be popular—but people are wondering just how a well known blond banker and a certain attorney of our fair city happened to be selected by acclamation to represent the Hamlin Lions at the International Lions Convention in California in July.

—oo—

She was left waiting on the church steps—but don't get the wrong idea. It was only a date—plain, vanilla. A certain young man, who was to meet a very attractive young lady school teacher on the church steps to escort her to church, overslept and failed to keep the date.

Yesterday morning the West Texas Utilities manager and a prominent young salesman in one of our dry goods stores shoved off for the west. Their landing field will be California, where they will let the International Rotary Convention know about Hamlin Rotarians. (It seems that the thing to do this summer, is, "Go west, my fren', go west.")

Just around: It seems queer that a certain young drug store employee has to go two blocks to an ice cream parlor to get ice cream . . . our fair city is losing its reputation as a haven for eligible men . . . Another bachelor bit the dust this week. . . A certain fire insurance man is developing a good case of nerves—more commonly referred to as jitters. . . It couldn't be the advice offered him by "a friend"? . . . For the latest in collegiate coiffures for men, we refer you to a popular Texas U. student. . . Our idea of a sporty car is the brown V-8 seen dashing around our town. . . How did Bill Norris rate so much publicity the other night?

Last week Bob Barrow walked into a store where a colored man was working. The c. m., who doesn't want to have any dealings with "that man" for a long time, took to his heels. Later in the day, the c. m. was found asleep in the back of the store, so his friends called Bob to have some fun. Bob went back, put his hand under the man's head and, as he opened his eyes, asked, "Is this the dead nigger?" The c. m. left in a cloud of dust, and when found three days later, he was three shades lighter.

Nowadays when you open your door and see a gray bearded, white haired peddler, he's just a "poor boy working his way through college." Even a new song sung to the old tune would be a change.

BORGER TRAVELERS HURT IN HAMLIN

Thursday a little before 1:00 o'clock, P. M. four persons, two men and two women, while entering Hamlin on Highway No. 4 from the north, had a blow-out that came near causing a fatal accident.

The parties were Mr. and Mrs. R. H. Thorn, and L. W. Gregg and Mrs. Murray, all of Borger. They were traveling south in a 1936 Town Sedan Chevrolet, and when just in front of the Lawson home the right rear tire blew out and the speed of the car cut the rim into the road topping, and finally the car headed up and toppled over and then made a couple of more rolls and stopped right in front of the Clyde Benham residence. The car tore away the concrete rural mail box stand, and stopped, bottom side up with all the people in it.

Mr. Benham and Mr. Lawson got to them immediately and pulled them from the car and hastened them to the Hamlin hospital. Three of the parties, L. W. Gregg, Mrs.

REDDY

Your Electric Servant

"Folks, I'm Reddy Kilowatt, Your Electrical Servant. I don't want a formal introduction. But I do want to get on such friendly terms with you that I can say, 'Howdy, Bill,' and 'Howdy, Mary.' I want you to invite me in, see? I won't be any trouble. In fact, I'll do all the work you've been doing. That's my specialty. While my name is new right here in West Texas, you've had the benefit of Electric Service all the time. My entrance into the picture merely gives personality and a warmer touch to it. Too, I can tell you more ways in which to use the West Texas Utilities Company. Make 'em work for you! Their rate of pay—well, let's say 'My Rate of Pay'—is so small you'll be positively flabbergasted at the work I do for a few pennies. I'll be with you from now on... in the papers, in the show windows, and—I hope—right in your home and business. You see, folks, I'm Your Electric Servant!"

The alert, courteous voice of the telephone operator is known to all who use the telephone. To the little old lady in the shawl, the man in the big house on the hill, the tiny tot of six, the words are the same: "Number, please" and "Thank you". Like all those who work for the

telephone company, from executives to office boys, the operator's aim is more than just giving fast, accurate, dependable telephone service, at a reasonable price to you. It is to serve you in such a manner that you can say, "They're nice people to do business with."

Next Sunday is regular preaching day at the Methodist Church. Let's all come and observe the Sabbath in the right way.

The Herald has overlooked the news item that Frank Johnson, a medical student from the Baylor Medical College at Dallas has been at home several days, but has been on the sick list. He will soon be able to come down town, if he keeps on improving.

RE-ELECT OTIS MILLER

In the First Primary

—In the light of his record of service, his constant fight to safeguard the morals of the country, his forthright stand and leadership on public issues, and his unswerving devotion to public duty Otis Miller deserves to be re-elected District Attorney of Taylor, Jones and Fisher Counties in the FIRST Primary.

—As a matter of fact, his record of having tried approximately 400 criminal cases and having won 96 per cent of them and his leadership in safeguarding the public morals should have given him the office once without opposition. However, since being elected District Attorney, he has waged such a fearless, persistent and successful fight against the lawless element and those connected with the protection of the outlaw element of society that he has incurred their eternal opposition, and it is to his credit that this element always opposes him.

—Judge Miller is no doubt one of the best qualified District Attorneys in Texas today, and this statement is borne out by his splendid record of having tried some 400 or more criminal cases and having won 96 per cent of them. He has equipped himself for a career of public service and the people of the 104th Judicial District would indeed be acting unwisely not to accord him this time the splendid support they have always heretofore accorded him.

—One far-reaching instance of service which he performed while County Judge of Jones county will indicate the type of public servant Otis Miller is and always has been since entering public service. While county judge of Jones county Judge Miller realized that the staggering tax burden of road bonded indebtedness would crush every county in Texas eventually. He started out to relieve the taxpayers of that burden. No one agreed with him that it could be done. The then governor of Texas opposed him. The State Highway Department opposed him. However, he enlisted the aid of practically every commissioners court in Texas, carried on a statewide fight, got a special session of the legislature called, went to Austin and fought the thing through to a successful finish and today the taxpayers of every county in Texas enjoy the benefits of this work in the form of much lower taxes.

—This advertisement is paid for by citizens of Hamlin, Jones county, Texas, who have known Otis Miller intimately for years. We are of the firm conviction that his record of public service in the past entitles him to re-election as District Attorney of Taylor, Jones and Fisher counties in the FIRST primary. If you believe in rewarding a man who has given his all to his work, who has stood foresquare for the right in every instance, a man who is not afraid to take a stand and lead a public fight on moral issues involving the public good, then vote unanimously for Otis Miller and re-elect him in the first primary. His record of service deserves this much at our hands.

McCAULEY MATTERS

By JOHN P. HARDESTY

Mr. and Mrs. Cecil Gill and little daughter, Janice Marie, spent Monday to Wednesday with Cecil's parents, Mr. and Mrs. B. B. Gill. Their home is in Fort Worth. They are on their way to Hollywood, Cal., where Janice Marie, aged three and one half years, will contest in the Kiddie Shows. Janice Marie has won twelve consecutive first places during the past year, having contested in all the theatres in Fort Worth. She sings with her father on station KFJZ every Sunday at 12:30. Cecil is on a sponsored program over this same station five days in the week. They expect to be gone on this vacation trip one month. They have a little son a year old, whom they left with relatives while away. Cecil also runs a hamburger stand in south Fort Worth. During last year he sold 29,349 hamburgers, and his goal for 1938 is 40,000. Cecil was reared in McCauley, and his many friends here congratulate him and his family on their attainments in the music world and in their business enterprise. One of the many letters of introduction to Hollywood he has is from Elliott Roosevelt, son of the president of the U. S.

The following named young people from McCauley are away in summer school. Geneva Jo Maberry, T. S.C.W., Denton; Jewell Davison and Wilma Redus, N.T.S.T.C., Denton; Kenna Rector, Hardin-Simmons University, Abilene; Mr. and Mrs. H. P. Powers, Texas Technological College Lubbock.

Minister Bruce Proctor, of Hamlin, will preach at the local Church of Christ next Sunday night.

Mrs. Bonnie Bingham is visiting relatives in the DeLeon section for

a few days.

June Davison is home from attending the regular term of N.T.S.T.C. at Denton.

Marvin Davison is home from attending Texas Tech at Lubbock.

The revival meeting for the Methodist congregation will be held the fourth Sunday in August. The Rev. U. S. Sherrill, of Knox City, has been engaged to assist the pastor, Rev. J. R. Bateman.

The Baptist revival is to be the first Sunday in August, with the Rev. P. D. O'Brien, Stamford, doing the preaching and Roy Camp, Wichita Falls, leading the singing.

Mr. and Mrs. B. F. Short visited Mrs. Short's sister and family in Clyde last Sunday. Several other McCauley people went over Saturday and Sunday to view the disaster wrought by the tornado which swept that community on Friday.

The following attended the senior B.Y.P.U. rally at Roby last Friday night: Mr. and Mrs. Jack Johnson, Ruby Rhoton, and Alline, Katie, Nola, Lilly, Latane and Corrinne Akins, and Mr. and Mrs. Hardesty.

The monthly Workers Conference of Fisher County Association will convene with the McCauley Baptist church next Monday, June 20. The ladies of the church are preparing to serve a large number of guests. A good program has been provided. The new pastor's home will be formally dedicated. All friends are most cordially invited to be our guests on that day. Please consider this a personal invitation to come. The following committee has charge of arrangements: M. L. Akins, A. A. Callaway, Mmes. George Darden, F. L. Rector and Hallie McFatter. This assures us of everything being just right. Plenty of barbecue, pickles, cakes and pies, with cold and hot drinks to suit. The dinner will be served at the tabernacle. All candidates of Jones, and Fisher counties, and those run-

ning for district offices, are specially invited. "Come thou with us and we will do thee good; for the Lord hath spoken good concerning Israel."

SAFEWAY

Every man feels instinctively that all the beautiful sentiments in the world weigh less than a single lovely action.—James Russell Lowell.

Strength During MIDDLE LIFE

Strength is extra-important for women going through the change of life. Then the body needs the very best nourishment to fortify it against the changes that are taking place.

In such cases, Cardui has proved helpful to many women. It increases the appetite and aids digestion, favoring more complete transformation of food into living tissue, resulting in improved nutrition and building up and strengthening of the whole system.

Remember that to change thy mind and to follow him that sets thee right, is to be none the less a free agent.—Marcus Aurelius.

What is lovely never dies,
But passes into other loveliness.

The figures were 38,237,877 the county, of which 1,539,182 have been issued in Texas and 452,529 the Dallas district.

Officials believe the national total will swell to 40,000,000 by the end of this year, he said.

New York headed the list of states with 5,295,888 registered workers.
